面谈时间： 30 分钟

面谈提纲

1. **开场问候**（5 分钟）

   ○ 感谢测试人员参与本次测试，简要介绍面谈目的。

   ○

2. **使用体验讨论**（10 分钟）

   ○ 在使用过程中，您对软件的总体印象如何？

   ○ 您是否遇到过声音识别功能不准确的问题？具体的场景是什么？

   ○ 您觉得声音定位功能是否帮助您提升了使用体验？是否有偏差？

   ○ 您体验到的 3D 音效感觉如何？是否有代入感？

3. **问题与反馈**（10 分钟）

   ○ 使用过程中，您遇到过哪些明显的问题或障碍？

   ○ 如果是语音识别不准或狗叫声停止不及时的情况，您认为原因可能是什么？

   ○ 您认为在当前的版本中，哪个部分最需要改进？

4. **改进建议与未来期望**（5 分钟）

   ○ 如果您可以提出改进建议，您希望软件增加哪些功能或改进哪些方面？

   ○ 您认为未来的版本中，什么样的功能会更吸引您继续使用这款软件？

5. **总结**（5 分钟）

   ○ 再次感谢测试人员的宝贵时间和意见，说明他们的反馈将如何帮助改善软件。

Interview time: 30 minutes

Interview outline

1. Opening greetings (5 minutes)

o Thank the tester for participating in this test and briefly introduce the purpose of the interview.

o

2. User experience discussion (10 minutes)

o What is your overall impression of the software during use?

o Have you encountered the problem of inaccurate voice recognition? What is the specific scenario?

o Do you think the sound positioning function helps you improve the user experience? Is there any deviation?

o How do you feel about the 3D sound affects you experience? Is there a sense of substitution?

3. Questions and feedback (10 minutes)

o What obvious problems or obstacles have you encountered during use?

o If the voice recognition is inaccurate or the dog barking stops in time, what do you think may be the reason?

o Which part do you think needs to be improved most in the current version?

4. Improvement suggestions and future expectations (5 minutes)

o If you can make improvement suggestions, what features do you hope to add or improve in the software?

o What kind of features do you think will attract you to continue using this software in future versions?

5. Summary (5 minutes)

o Thank the testers again for their time and comments and explain how their feedback will help improve the software.
